Application Engineer

Jefferson Electric is a rapidly growing manufacturer of dry-type electrical transformers with a rich tradition of supplying products to various commercial and industrial markets. Jefferson continues that tradition today, manufacturing high-quality dry-type transformer products for our OEM and End User customers.

We are seeking an experienced **Application Engineer** to join our Engineering team located in Franklin, WI. The successful candidate will provide technical support to our internal and external customers regarding Jefferson's dry-type transformer product lines. Responsibilities include creating quotations to meet customer requirements, providing an interface between our customers, Design Engineers and manufacturing personnel, troubleshooting and entering and tracking customer quotes.

Qualifications include:

- Bachelor of Science degree in Mechanical or Electrical Engineering or equivalent
- 5+ years of related work experience in a manufacturing environment
- Proven ability to multi-task in a fast pace environment
- Excellent written and verbal communication skills
- Strong computer skills

We offer a competitive salary and benefits package and the opportunity to work for a respected industry leader. Interested candidates should send their resumé along with salary requirements to careers@jeffersonelectric.com
